

Saving lives around the world

Insulin for Life

Insulin For Life
Thank you

Insulin For Life
Thank you

IFL Global collects and distributes each year about:

- 300,000 mls of insulin (equal to 30,000 x 10 ml vials, or 100,000 x 3 ml penfill cartridges)
- 8,000 boxes of blood glucose test strips (400,000 strips)
- Blood glucose testing meters, insulin pens, pen needles and syringes.

These are sent in response to emergency requests, and as part of ongoing sustainable programs, and are valued at US\$1.4 million each year. Operating costs are less than 5% of the value of the supplies. IFL actively co-operates with the International Diabetes Federation.

IFL Global is growing and needs financial and other support to help start new collection centres, and to pay for some of the transport and handling costs of sending the donated supplies.

Please consider establishing new collection and distribution centers based on the IFL model. Large amounts of insulin and strips etc are available, and are currently being wasted. You will be helping save lives.

Saving lives around the world

Insulin for Life

is a not-for-profit organisation that collects and distributes donated in-date and no longer needed insulin, test strips and other diabetes supplies which would otherwise be wasted, including from diabetes clinics. These are sent to recognised organisations and with agreed systems. Many lives are being saved.

Insulin for Life Global is a network of independent not-for-profit IFL affiliated centers in other countries which collect and distribute supplies in the same way.

www.insulinforlife.org

Who we are:

Insulin for Life Australia pioneered this innovative model. It is also the co-ordinating centre for IFL Global.

Members of the Insulin for Life Global network are:

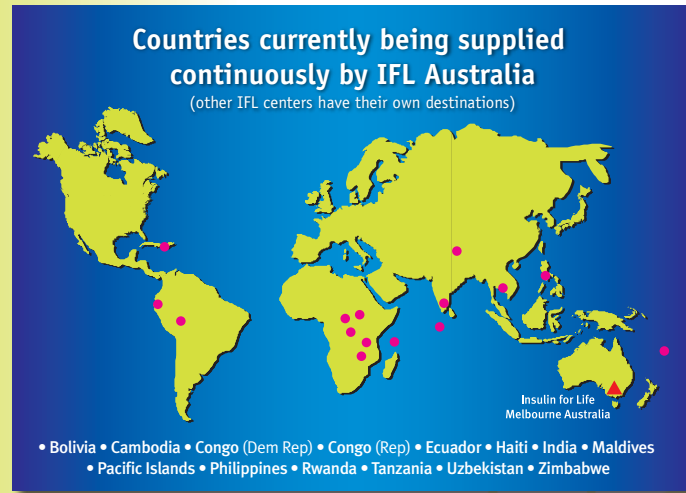

- Insulin for Life Australia (established 1999, expanded from a diabetes center, started 1986)
- Insulin Zum Leben Austria (established 2006)
- Insulin for Life Canada (established 2010)
- Insulin Zum Leben Germany (established 2000)
- Insulin for Life Netherlands (established 2009)
- Insulin Dependent Diabetes Trust-UK (supplies program started 2002)
- Insulin for Life USA (established 2003)

IFL Australia Board Members (left to right): Neil Donelan (Manager, Supplies Storage and Distribution); Faye Kirkwood (Finance); Bruce Wainwright (Legal and Administration); Ron Raab OAM (President); Dr Alicia Jenkins (Medical Advisor and Manager of IFL USA)

What we do:

Over 70 countries have received insulin, strips and other supplies from IFL since 1986, in all IDF Regions.

“I no longer have to discharge my patients home to die.”

(Dr J Burdon, Africa, British Medical Journal; 313:58).

“You are giving life to our children.”

(Aracely Basurto, FUVIA, Guayaquil, Ecuador)
